Title: Drivers of Export Performance in Africa: Insight from Machine Learning

RELEVANT WORK EXPERIENCE

Lecturer

Business Department, Palm University College
July 2025 – Present

I teach undergraduate courses including Introduction to Calculus, Probability and Statistics, Elements of Microeconomics, Elements of Macroeconomics, Business Mathematics, and Algebra. I again develop and deliver lectures, tutorials, and assessment materials that promote strong analytical skills and deepen students' understanding of mathematical and economic concepts. I provide academic guidance, mentorship, and personalized in the form of academic advising to support students to enhance learning outcomes and foster academic excellence. I also design course content, grading rubrics, and continuous assessment tools in line with institutional standards and program objectives. I also contribute to departmental academic activities, curriculum improvement, and collaborative initiatives that support high-quality teaching and learning.

Research Assistant
Department of Economics, University of Cape Coast
2022 – June 2025

Research Assistant I assist undergraduate students to refine their research topics, define objectives, and establish clear research scopes. I assist in designing suitable research plans, selecting appropriate methodologies, and employing effective analytical tools to enhance the quality and rigor of student research projects. In addition, I organize and facilitate tutorials and academic workshops to deepen understanding of theoretical concepts, promote inclusive learning, and support academic excellence among a diverse student population. I also provide ongoing mentorship and academic guidance, helping students navigate both their educational journeys and future career aspirations.

Graduate Assistant

School of Economics, University of Cape Coast
September 2021 – December 2022

Graduate Assistant: my responsibilities included providing instructional support for undergraduate courses such as *ECO203: Mathematics for Economics I*, *ECO204: Mathematics for Economics II*, *ECO201: Elements of Economics (Micro) I*, and *ECO202: Elements of Economics (Macro) II*. I effectively taught, supervised, and assessed over 600 undergraduate students across these courses, grading their assignments, tests, and examinations with consistency and fairness. Additionally, I accurately entered and managed students' academic records and results on the university's portal, ensuring timely submissions in compliance with institutional guidelines.

Examination Officer
College of Distance Education, University of Cape Coast
September 2019 – December 2021

Examination Officer, I was responsible for generating detailed statistical reports using Microsoft Excel to support the printing and distribution of examination questions for both undergraduate and postgraduate programs. I also participated in the marking of undergraduate quiz scripts and ensured timely and accurate assessment of student performance. Additionally, I conducted tutorials and academic workshops aimed at reinforcing theoretical concepts, enhancing comprehension, and fostering an inclusive learning environment for a diverse student body across various academic disciplines.

INTERNSHIP & VOLUTEERING

Mathematics and Economics Tutor (Internship)
University Practice Senior High School, Cape Coast
June 2017 – May 2018

Delivered instructional support in Economics and Elective Mathematics to senior high school students, focusing on foundational concepts. Provided personalized tutoring to individuals and small groups, identifying learning gaps and adapting teaching strategies to improve academic performance. Fostered critical thinking, problem-solving skills, and academic confidence in preparation for their final examinations.

Entrepreneurship Tutor (Volunteering)
Grace Hill School, Cape Coast
2024 – Present

As a volunteer tutor, I deliver engaging lessons on contemporary entrepreneurial practices, with a focus on E-Commerce, M-Commerce, and the broader Digital Economy. I introduce students to key concepts in network marketing and equip them with practical knowledge of risk management in business ventures. My role emphasizes interactive learning, real-world

applications, and inspiring innovation and self-reliance among students through modern entrepreneurial strategies.

PERSONAL DEVELOPMENT TRAINING (WORKSHOPS, SEMINARS, WEBINAR

- Research Data Management & Sharing – August 2024
- Grant-Making Training – April 2024
- Career Success Workshop – July 2023
- Two-Day Capacity Building Workshop on the Use of Demographic Health Survey (DHS) Program Data – July 2023
- Two-Day Quantitative Data Analysis Workshop for Graduate Students – February 2023
- Microfinance Seminar Series: Blending Conceptual Microfinance with Technology in Building a Resilient Microfinance Sector in Ghana – July 2023
- Shaping the Future of Microfinance in Ghana: The Role of Financial Literacy and Fraud Prevention – July 2023
- Time Series Data Analysis Using Stata and EViews I & II – June 2023
- Mobile Money, Remittances, Savings and Household Income – February 2023
- Corruption, Political Dynamics and Sovereign Default Risk: A DSGE Approach – February 2023
- Remittances and Multiple Job Holding – January 2023

PERSONAL SKILLS

Excellent skills in writing, speaking, editing, research, and analysis, supported by years of experience as a researcher and graduate teaching assistant. I have strong interpersonal communication and public speaking abilities. I also have effective teaching skills, a team player with leadership abilities, time management, and can handle multiple responsibilities efficiently.
